The Alternative to Timber

As the name suggests, the Heritage Collection is a range of elegant windows and doors that are packed with the characteristics and charm of period timber windows.

Less obvious perhaps is that every window and door shown throughout this brochure is manufactured, not with timber but using a specialist range of advanced PVC-u profiles.

Considerable care has been taken to capture the charm and elegance of timber, even down to the tactile woodgrain finish, but combine this with the advanced low maintenance qualities associated with modern day PVC-u products.

This versatile collection includes a number of options from the fundamental choice of sash style through to your choice of finish from the subtle colour palette. The result of this is a range that will suit a multitude of property styles and this will be evident as you browse through this brochure.

Choice of three sash options

In order to cater for a diverse range of property styles, the Heritage Collection offers you the choice of three sash options.

All three options utilise the same thermally efficient chambered outer frame and all provide a beautiful white woodgrain ovolo sculptured finish on the inside.

Equally, all options include dummy sashes on any fixed windows, providing a balanced appearance and equal sight lines between your chosen configuration of fixed and opening windows. All options are also available in the same Heritage range of colours and with the same optional finishing touches such as Georgian bar detailing and your choice of elegant furniture.

This however is where the similarities end and the clear distinction between the three sash options becomes apparent. Whilst the rebated sash lips over the outer frame giving a picture frame effect, the flush sash remains in line with the outer frame offering a slimmer appearance. You then have the option of Flush M, offering mechanical butt joints to the outer frame and sash for the truly authentic timber look.

Browsing through, you will find many photos to inspire you and help you to decide on the right choice for your home.

outer frame and Flush M Sash

The Heritage Colour Palette

In previous years it was a given that new windows would always be replaced with like-for-like, which in most cases meant white PVC-u.

But in recent years there has been a colour revolution and whilst white PVC-u is still going strong, today there is a myriad of other options available from dark anthracite greys, through to beautiful and elegant creams, all the way through to soft greys and greens.

Regardless of your property style and age the Heritage Collection allows you to make a statement with colour on the outside but still maintain a fresh but subtle white woodgrain finish on the inside. French Grey or Agate Grey might work to enhance your property from the outside, but white is incredibly versatile as an interior colour and works well with just about any colour scheme, which will inevitably change over time.

Consider the character of your property – some properties in the UK will be bound by listed building rules that prohibit certain decisions around a property's exterior appearance – while this is unlikely to be the case in many instances, it's always wise to consider the age and style of your property before you make your final decision.

There are many properties in the UK that would really benefit from the use of these alternative shades to enhance their period features – so don't be afraid to explore this option.

Likewise, if your mid-50s semi is crying out for a style statement, you might want to consider a smooth anthracite grey – against a traditional British brick, the grey is incredibly pleasing on the eye and can deliver an instant wow to any property.

The below Heritage finish options all have a White Woodgrain finish on the inside face.

White Woodgrain

Ice Cream Woodgrain

Smooth Anthracite Grey

Ivory Woodgrain

Black Woodgrain

French Grey Woodgrain

Irish Oak

Agate Grey Woodgrain

In addition, you have the options of Smooth White finish (inside and out) as well as Cherrywood and Rosewood.

Cherrywood and Rosewood are available on both sides or with smooth white inside)

Security

The very latest security features have been engineered to fit all styles of Heritage Windows, to ensure your safety and security is never compromised.

With the simple turn of a handle, every window is secured by a multi-point locking system, securing points on all four sides of the opening sash, giving you complete reassurance and peace of mind.

For your safety, easy clean/fire escape hinges are fitted as standard to all side-opening windows. These will open to a full 90° to give you an alternative means of fire escape (dependent on window size) and with a simple turn of the slot-bolts located at the top and bottom you can slide the opening sash towards the centre to allow easy external cleaning from the inside.

The window will automatically realign upon closing and the unique dual purpose key can be used to lock your window handle and to operate the hinge slot-bolts.

Heritage windows offer you a choice of three handle designs; Tear Drop, Monkey Tail or Push Button Locking Handles. All three designs are available in multiple finish options so you are able to choose the perfect handle to complement your window style and other existing interior furniture.

A lovely example of Heritage windows with the rebated sash option installed in a Lincolnshire property.

The home owners chose Agate Grey which looks spectacular alongside the stone and roof tile colours.

Heritage with **Rebated Sash**

The Heritage Collection is designed to offer an innovative, low maintenance yet high performance alternative to traditional timber joinery.

A crucial design aspect that helps to create the timber look is the use of 'dummy sashes' where no opening window is required.

An example of this is pictured below where the two outer sashes are designed to open out but the middle sash does not. A 'dummy sash' is used in the middle to give the impression of an opening sash and consequently keep the appearance identical to the two outer opening sashes.

The use of 'dummy sashes' is standard across the Heritage Collection and ensures a balanced design with equal sight lines throughout.

Here we see another great illustration of Heritage 'dummy sashes' from both outside and inside perspective. As you can see by the positioning of the ornate Monkey Tail handles, the two outer sashes are both opening windows with the centre sash fixed.

This installation also shows how Heritage Windows provide a subtle splash of colour outside (in this case Agate Grey) but always maintaining a neutral fresh White Woodgrain finish on the inside.

Heritage with rebated sash and deep Georgian Bar

For a cottage style appearance, the Heritage Rebated window, finished in one of the available subtle woodgrain colours such as Ice Cream or French Grey will add charm and character to a property.

Optional Georgian Bars will enhance the character further and provide a strong sense of period identity, particularly important if you are replacing 'like for like' and trying to emulate the traditional timber joinery that you are replacing.

Heritage with Flush Sash

Close up showing the subtle exterior Ice Cream Woodgrain finish as well as the clean bevelled lines and how the sash sits perfectly flush within the window frame.

Neutral and fresh White Woodgrain internal finish, showing the ornate sculptured detail around the frame and Georgian bar layout.

Elegant external putty line Georgian bars to add character and complement the style of the property as well as those surrounding it.

Elegance and simplicity with Heritage Flush Sash

Here we have a beautiful example of Heritage Flush windows, installed in a four bedroom detached property in a Nottinghamshire conservation village.

The property is less than 20 years old but has been designed to be in keeping with the style of the sixteenth century manor house in whose original driveway the house has been built.

The owners knew they needed to replace the original windows and wanted to give their house the wow factor but were also mindful of the need to be sympathetic to the style of the older properties surrounding them in the village. That's when they started looking at woodgrain effects and were introduced to the Heritage Collection.

They opted for a Heritage Collection flush casement style in Ice Cream woodgrain on the outside face to create the impression of wooden windows. As with all Heritage woodgrain windows, the inside face is kept to a neutral White Woodgrain finish for a bright and spacious feel and to complement neutral décor.

To the front, the owners chose to have two horizontal Georgian bars to add character to the property and to reflect the traditional styles of many of the houses in the village. To the rear they wanted an uninterrupted view of the garden, so decided not to have Georgian bars on those windows.

Versatility

Because of the varied colour palette and range of design options, Heritage Flush windows are equally well placed in a period country cottage to a modern housing development.

Two great examples here of how Heritage Flush windows can either completely transform and modernise a property or conversely be used to recreate period timber windows in a more durable, energy efficient and lower maintenance material.

This beautiful property is located in the heart of an idyllic National Park. The owners chose to replace their previous timber windows with Rosewood Heritage Flush Sash windows, also with the added benefit of triple glazing, vastly improving the windows energy efficiency.

Equal Sightlines

With its symmetrical frontage, this property perfectly highlights the aesthetic benefit of using dummy sashes in non-opening windows.

By using dummy sashes, all of the windows share the same appearance as the opening sashes, therefore creating symmetry and continuous lines throughout that we refer to as equal sightlines.

Elegant handles complete the simple but stylish look.

Heritage Door Collection

The Heritage Door Collection includes a range of 23 versatile PVC-u door styles, thoughtfully designed to emulate the aesthetic character of timber doors but with the added security benefits and low maintenance qualities that modern day living demands.

You have the choice from a range of 11 standard finish options or alternatively Heritage Doors can be Kolorbonded to any RAL colour of your choice.

The diverse range of available door styles from classic to contemporary combined with the broad colour palette available makes it easy for you to create the perfect entrance to your home.

Optional 175mm Deep Feature Midrail

A number of styles in the Heritage collection have been designed to closely emulate traditional timber doors and are therefore suited to include the 175mm Featured Midrail option.

Deeper in proportion, this option is more in keeping with the appearance of typical timber door designs.

Georgian bars can also be added to French doors in order to follow the design through when Georgian bars are featured in other windows and doors throughout the property.

French Doors

If you have selected a colour from our heritage range for your windows or perhaps your front or back door, it is quite possible you will want to match these with a set of French doors.

The Heritage collection makes it easy for you to do this with the same available finish options on French doors as there are for windows and entrance doors.

Security

Ultimate security for Heritage Doors is provided by their own unique multipoint lock system.

Each door is fitted with a robust 12/14 point lock (dependent on door height) that includes a series of roller cams, hook locks, dead locks, shoot bolts and centre latch.

To prevent cylinder manipulation, a 3 star high security cylinder is fitted, in keeping with British Standard requirements.

Equally, the hinge side of all Heritage Doors are secured with 3 high security anti-lift hinges.

For your convenience, all doors are supplied with 5 keys as standard.

Dome Knob

Doctors Knocker

Ring Knocker

Urn Knocker with Spyhole

Traditional Detailing

Our Antique Black handles and letterplates are perfect for more traditional style doors.

Glazing

Often entrance door design is dictated by the need for extra light, or the desire to retain the original period design.

Our door range not only gives you a terrific choice of colours and designs but the flexibility of our glazing options allow you to either 'go create' a new look or stay classic and authentic.

The options are simply vast and include plain glass, obscured, coloured, etched glass, leaded and bevelled designs. All of these include a multitude of variations so you are sure to find something to suit the style of your door and property.

Lead patterns can really help to
accentuate period features.

Georgian Bar Design

Our authentic Georgian Bar design will
instantly create the period look.

Because the bars are fixed to full length
aluminium backing strips, there is no risk
of the bars warping or bending.

Putty line Georgian Bar

Sculptured Georgian Bar

Decorative Glazing

Coloured and bevelled glass designs can offer a traditional appearance, whilst more simplistic etched glass designs give a contemporary look.

The dimensions of these glass patterns can be adapted to suit the style of your chosen door with half, dual, and full height glazed panels.

You may wish to personalise your home further by having your house number etched or bevelled within the design.
